Polyester Powder Coated

JOB SPECIFIC DETAILS & SCOPE OF WORKS

This was a renovation of an existing 19th century farm house; this beautiful building is situated in a prominent conservation area so the right product was essential; Rainclear supplied their heritage Cast Aluminium gutters & downpipes finished in RAL9017 Black to suit this traditional property at it's very best.

Rainclear were instrumental from the outset and sourced a reputable installer to work with the client in respect of scheduling the list of materials and agreeing suitable 'installation' dates. Rainclear work with a number of reputable and long standing installation businesses that understand the needs when fixing a metal rainwater system whether that be cast iron, aluminium or steel.

Rainclear also facilitated the design and manufacture of completely bespoke Aluminium rainwater diverters for the environmentally conscious client allowing them to divert & recycle their rainwater for garden irrigation use.
